Full-Stack Software Engineer

Web Development

Personal Info

I'm a programmer because I love solving problems, especially brain teasers with interesting jumps to solve.

I'm always keen to keep learning more, and frequent various programming and tech reddit's, as well as [YCombinator's Hacker News](#) and various programming sub-Reddit's.

I play various games. Outdoors I have played soccer since the under 6s(!), and online have been raiding in World of Warcraft for the last 13 years, including heroic/mythic raiding for a couple of those.

Languages

- C#
